

LIGHT IN ITS ELEMENT

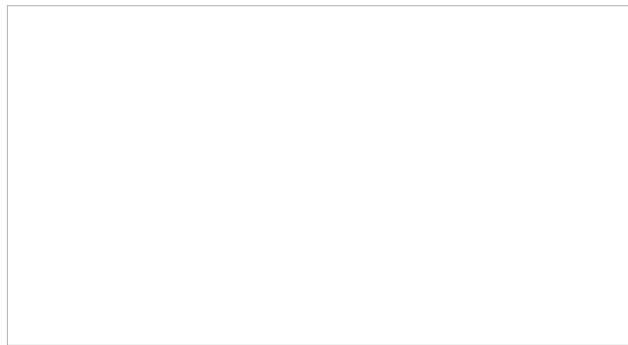

elumentis LED offers outstanding lighting performance combined with well thought-out ergonomics and intuitive operability. Design, high-quality LED technology and helpful functions make elumentis LED the ideal lamp – for the reading corner/desk at home and for professionally equipped workplaces in the office, workshop or laboratory.

Simply practical

Anti-slip pads under the lamp base provide additional stability on the spot, while at the same time protecting sensitive surfaces.

LIGHT IN ITS ELEMENT

elumentis LED

1 Best lighting quality

The very high $R_a > 92$ colour rendering index in conjunction with a multi-layer diffuser ensures faithful colour rendition for high-contrast, homogeneous and glare-free work surface illumination: with pleasantly soft shadows instead of disturbing, hard-edged cast shadows.

Casting of shadow

2 Three colour temperatures

warm white, neutral white or daylight white: infinitely dimmable as well as adjustable in five levels of illumination.

3 Ambient light can be activated

on the top of the lamp head: can also be used as ambient lighting or as a stand-alone orientation light.

4 Good ergonomics

Self-explanatory, clearly arranged and easy-to-feel buttons ensure intuitive operation.

5 High flexibility

With a maximum overall height of 53 cm and a particularly variably adjustable lamp head/arm, this table lamp can evenly illuminate – even across monitors up to 27" – in diagonal size an entire workstation.
