

PIXEL

THE AGILE ONE FOR THE HOME

REHASENSE

PIXEL

THE AGILE ONE FOR THE HOME

THE COMPANION AT HOME

The PIXEL was designed especially for indoor use. The stylish rollator with the patented "Click & Safe" safety catch has a large tray and can also be used as a practical side table if required.

The shock-absorbent soft wheels and the innovative flexi frame make it easy to overcome small obstacles such as door thresholds.

The stylish companion for home is available in three stunning designs.

"The peace of mind we have had since my mother has been using her PIXEL is priceless. After recent knee surgery she has had trouble getting around the house independently but not any more thanks to the PIXEL".

Manuel from Berlin

FEATURES AT A GLANCE:

- Incl. tray, fabric bag & accessory bag for smart phone, glasses etc.
- Soft and comfortable handle grip
- Safety brake control bar with wide handle
