

LowZone+

- Conforming 2-layered foam base with shaped well keeps the user comfortable
- Greatest size range and made-to-measure options
- For mild to moderate skin protection and postural support needs, contoured version available for high postural support needs

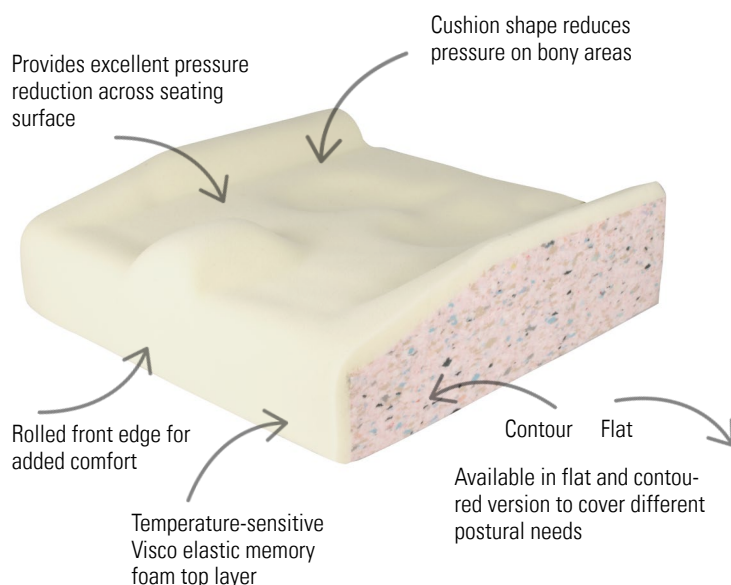

Expertly shaped Visco foam cushion to reduce pressure under vulnerable areas and distributes weight over the whole seated area which offers great weight limits and adaptations. Conforming 2-layered foam base with shaped well keeps the user comfortable. Greatest size range.

Cover:

- 1. CoolOver Cover** to regulate skin temperature to prevent skin breakdown, drives away excess heat from the skin, facilitates heat retention when needed, maintains optimal skin temperature
- 2. Microclimatic Cover:** 2-way stretch spacer fabric to promote circulation and reduces skin insulation

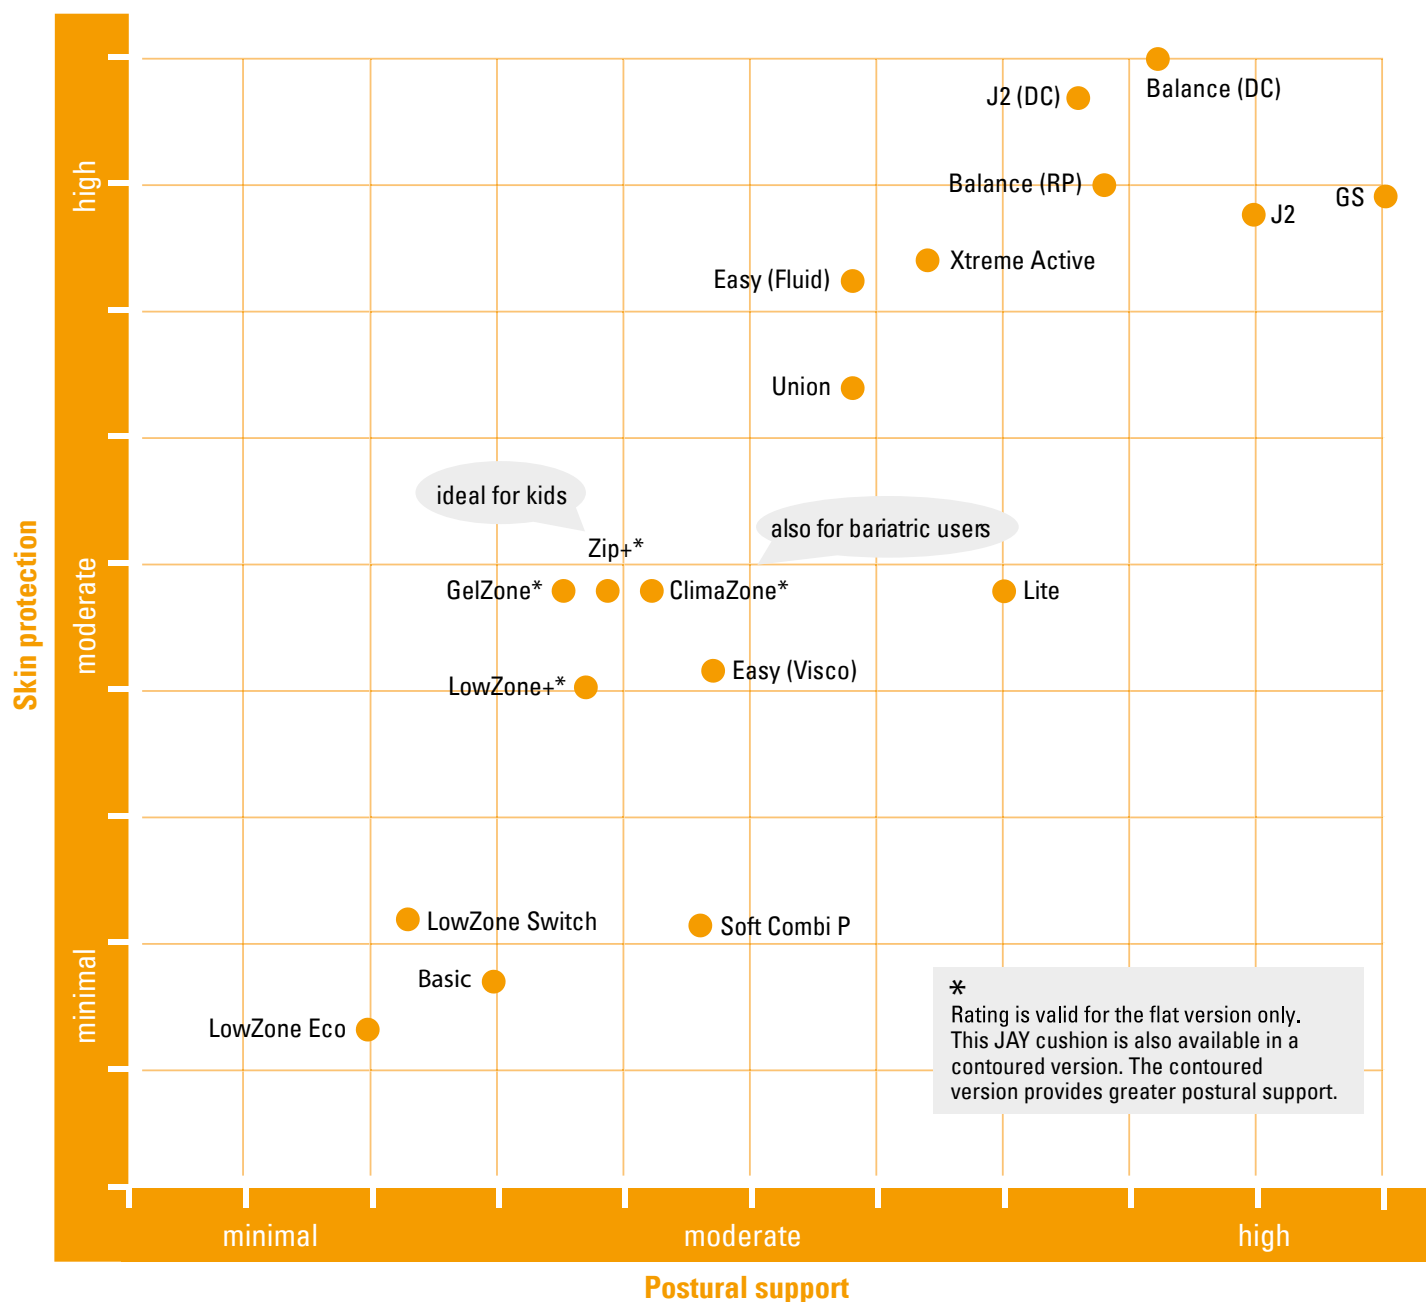

Foam:

These sizes are available, please see your order form for modifications or special sizes.

Weight cushion	1,10 kg
Max. user weight	158 kg
Height	50 mm and 80 mm
Width	360 - 600 mm
Depth	340 - 600 mm

JAY Cushion range

The demands on a seat cushion are as different as people are individual and compromises in clinical use are not acceptable. For this reason, our JAY portfolio offers tailored seating solutions spanning the broad continuum of clinical needs, while maintaining clinical efficacy. All of our JAY cushions combine skin protection with effective postural support and ease of use to the highest degree.

DISCLAIMER: FOR PROFESSIONAL USE ONLY.

Sunrise Medical strongly recommends that a clinician, such as a doctor or therapist experienced in seating and positioning, be consulted to determine which cushion and/or back is appropriate for the users' specific needs to prevent injury. Cushions, backs, and positioning supports should only be installed by an authorized Sunrise Medical dealer.
