Date 14.07.2021

## TEST REPORT NO. *CBC* –163/2021

Page 1 of 4

Subject of testing:

Walking aids with built-in handgrips and three or

more leas of which two or more are having wheels,

Classification according to PN-EN ISO 9999:2017-02:12 06 06

which provide support whilst walking

Type / Model:

JAGUAR SUPREME

indoor rollator

Nr kat .: --

REF: 312415 SN: 0001

Number of specimens: 1

Manufacturer:

MOBILEX A/S

Grønlandsvei 5

DK - 8660 Skanderborg

Applicant:

A-Net s.c.

93-469 Łódź.

ul. Łaskowice174

Kind of testing

Mechanical testing for conformity with PN-EN ISO 11199-2: 2005

Test started: 7.07.2021

Test finished: 14.07.2021

Approved by:

YREKTOR

mgr inż. Andrzej Tkaczyk

Special comments / enclosures:

Copyright © 2012 by Centre for Testing and Certification (applicable to report form)

Test results refer only to tested units.

Test results reported here are not applicable to the further modifications of the product affecting its structure, material or technology.

This test report shall be neither copied differently as in the whole nor be published without written consent of the Laboratory.

Pos. – positive; Neg – negative; N/T – not tested; N/A – not applicable; N/R – not required , N/O – not occurred , V/I.- visual inspection, Conf.- conformed.

NOTE 1: Deformation -35 mm, elastic deformation -34 mm, permanent deformation -1 mm (0,1%).

### **CONCLUSIONS:**

Testing object **conforms** with requirements of PN-EN ISO 11199-2: 2005 in scope of mechanical testing ordered by client, excluding biocompatibility tests of material with human body according to PN-EN ISO 10993-1:2010.
