# Mirage

Mirage - an ergonomic task light suitable for large work surfaces and tasks that require plenty of light. Of all the desk luminaires in our range, Mirage has the greatest light output and is supplied with a HF ballast to eliminate flicker. It is also available with a dimming option making it the ideal choice for large light demanding work spaces or areas such as control centres where an adjustable light level may be required. With all Luxo spring balanced task lights Mirage is easy to adjust and the head will always remain parallel to the work surface. The Mirage design strongly emphasises

**LIGHT SOURCE: 26W  
COMPACT FLUORESCENT  
LAMP**

**Arm length: 800 mm**

**Accessories: table base**

**Supplied with ballast box  
table bracket.**
