

The COIL range of popular magnifiers are uniquely suited for education and hobbies, as well as occasional use by the partially sighted.

Our magnifiers come in all shapes and sizes and somewhere in COIL's range is a magnifier to suit your application.

The lenses are designed to give a clear, distortion-free image and are fully compliant with BS EN ISO 15253: 2000*.

Magnifiers can be supplied in alternative colours and/or with custom logo's. Contact the COIL sales team for further details.
