

# Hygiene chairs

# Amfibi™

## Hygiene chair

The advantage of GATE hygiene chairs is that they can be quickly adapted to suit the needs of every individual and situation. Adjust seat height manually or electrically; angle the seat with the tilt function and customize it with accessories.

### Designed to meet needs

GATE hygiene chairs have a unique pillar design for quick and easy seat height adjustment. There is a choice of manual or electric adjustment to suit various needs. Amfibi fits most people no matter how tall, and staff will not need to waste time and energy looking for a suitable hygiene chair for each situation.

### Everyday life improved

And it goes without saying that Amfibi never compromises on user comfort and personnel ergonomics. Individually adaptable comfort and function makes the hygiene chair a much more pleasant experience for patient and healthcare staff alike. Amfibi is manufactured from corrosion-proof materials and its actuator can withstand high pressure hot water (IP66).

### Best possible comfort

Users often sit in a chair for a long while when washing or taking a shower, and this can become very trying. Amfibi was created to provide extremely high comfort. The seated Amfibi user is able to assume a position for the best possible

comfort. The hygiene chair quickly adapts to a personal fit with the aid of easily operated settings, and all models are height-adjustable.

The Amfibi's seat and back are adapted for an upright posture that does not close the pelvis. The ergonomic design minimizes pressure on the hips, tendons and blood vessels, while its rounded front edge contributes to a comfortable leg position. The new, soft, water-repellent backrest that provides the best possible comfort and hygiene is unique to Amfibi (accessory). It is easily adjustable for best support and seat depth.

### Which model suits your needs?

A broad selection of models makes possible the creation of a complete "fleet" of hygiene chairs. Because all models are suitable for most users regardless of their height or weight, the number of chairs and types of chair can be reduced allowing the addition of one or two more advanced models for demanding care situations.

GATE hygiene chairs are available in three different versions. Amfibi Double is our most advanced, versatile hygiene chair; it is adjustable in height and tilt angle of inclination. Amfibi XL was designed for the bigger, heavier patient, while Basic is our simplest version.

# Amfibi Double

EL

Amfibi Double is GATE's most advanced and versatile hygiene chair. It is equipped with twin electric drives, electrically operated raising and lowering and electrically operated tilt. The chair can be adjusted steplessly even when the patient is in the chair. Together with the soft, relaxing relief offered by the seat and back, the chair's functions provide superlative comfort for the patient and a minimum of strain for personnel.

**Best possible comfort**

## Tilt function

Amfibi Double can be inclined 5 degrees forward to 25 degrees rearward. This makes it easy to use for personal hygiene and when sitting down or getting up. The tilt function also improves the working environment and reduces strain on personnel.

## Ergonomic seat

The Amfibi Double's seat is adapted for an upright posture that does not close the pelvis. It minimizes pressure and is designed to suit both men and women. The seat is easy to remove and clean, while its rounded front edge contributes to a comfortable leg position.

## Plastic or metal

A guide is available for Amfibi as an accessory. Note that the guide is available in different versions to suit plastic or metal bedpans. See accessories.

## Swing-away, detachable footrests

Flip-up, swing-away, detachable footrests with heel restraints to prevent the patient's feet from sliding off in the tilt position are fitted as standard.

## Adjustable seat height

An infinitely variable seat height from 53 all the way to 82 cm means the chair will fit every patient and reduce staff workload to a minimum.

## Individual fit

Amfibi Double has a neck support that is adjustable in height and depth for comfortable support and individual fit.

## Easy control

Simply press the remote up/down and tilt buttons to operate. The cabled remote is sealed to a high protection class (IP65).

## Adjustable back-strap

The soft, comfortable back-strap relieves pressure on bony areas. It is easily adjustable for best support and seat depth. Machine washable.

## Lockable armrests

The armrests can be flipped up and locked in position to make it easier for the patient to assist with the transfer.

## Ergonomics

The chair liberates the user from effort completely, while no manual exertion is required on the part of the carer during any of the manoeuvres.

## Durable materials

Manufactured from corrosion-proof materials.

## Lockable castors

All four castors are lockable.

For accessories see page 7.

## Technical specifications

CE marked according to MDD 93/42/EEC.

Part No.	Product	Width, external	Max user weight	Seat height	Width between armrests	Seat depth
56-203DB	Amfibi Double	62 cm	150 kg	53-82 cm	52 cm	45 cm

# Easy

TILT GAS/EL | STD | STD WHEELS H. RIMS

The Easy hygiene chair is designed to be simple, easy to use and easy to clean. Easy's user-friendly seat height mechanism allows adjustment to suit each individual user.

Easy is available in several models with different widths and with or without tilting. All models share the ability to use the newly developed comfort seat with the opening to the rear (accessory). The Easy (without tilting) can also be fitted with wheels (22") and hand rims to provide the user with the ability to move around on their own.

### Integrated seat with the opening to the rear (accessory)

The seat has a soft, ergonomic design for the best comfort possible. The opening to the rear provides the carer with a natural, more hygienic working method.

Easy STD

Easy STD  
Wheels and hand rims

### Adjustable comfort back strap

Manufactured from a hygienic material – feels soft and comfortable. Easy to clean and never gets wet.

### Tilt function

Easy Tilt can be operated either by gas strut or electric actuator (IP65).

### Ergonomic seat

The Easy Tilt's seat is adapted for an upright posture that does not close the pelvis. It minimizes pressure and is designed to suit both men and women.

### Plastic or metal

A guide is available for Easy as an accessory. Note that the guide is available in different versions to suit plastic or metal bedpans.

### Adjustable seat height

An infinitely variable seat height from 48 all the way to 63 cm means the chair fits every patient and reduces staff workload to a minimum.

### New height adjustment mechanism

Quick and easy to adjust seat height.

### Durable material

Manufactured in corrosionproof materials.

### Lockable castors

All four castors are lockable.

### Swing-away, detachable footrests

Flip-up, swing-away, detachable footrests with heel restraints to prevent the patient's feet from sliding off in the tilt position are fitted as standard (Easy Tilt).

# Amfibi XL

EL

Amfibi XL was designed for the bigger, heavier patient and therefore provides extra space and strength and electrical height adjustment. Maximum user weight is 250 kg.

Can handle  
250 kg!

### Plenty of room

Maximum user weight for the Amfibi XL is 250 kg and seat depth is larger than standard. The hygiene chair has also been widened to 64 cm between armrests to provide extra room and good stability.

### Durable materials

Manufactured from corrosion-proof materials.

### Lockable armrests

Amfibi XL has armrests that can be flipped up and locked in position to make it easier for the patient to be of help with the transfer.

### Easy control

Electrical adjustment via a cabled remote which is sealed to a high protection class (IP65) for optimal safety.

### Built-in soft seat

The XL's seat and back are adapted for an upright posture that does not close the pelvis. The soft, ergonomic seat (PU) is standard and built in to the chair. It minimizes pressure on the hips, tendons and blood vessels and is designed to suit both men and women.

### Adjustable back-strap

Adjustable backrest The soft, comfortable back-strap relieves pressure on bony areas. It is easily adjustable for best support and seat depth. Machine washable.

### Easy to clean

The seat is easy to remove and clean, while its rounded front edge contributes to a comfortable leg position.

### Directionally locking/lockable castors

One of the castors can be locked directionally for improved safety during transit. The other castors are lockable.

### Swing-away, detachable footrests

The footrests flip-up, swing-away and are easily detachable.

### Electric height adjustment

Amfibi XL has a unique pillar design for quick and easy seat height adjustment. The seat can be raised by up to 81 cm from its lowest position and thus requires minimum effort from care personnel.

Guides and waste containers are available as accessories.

For accessories see page 7.
