Functional elegance in nursing care

carisma 300
Bariatric nursing home bed

carisma 300

The bariatric bed is designed to provide a comfortable and safe care situation for residents with a weight of up to 270 kilograms. The extra-wide patient surface area of 100 cm ensures that residents do not feel restricted. Nursing staff have sufficient space for relocation, mobilization and positioning of residents and are provided with additional support with reinforced drives for bed height, backrest and leg rest adjustments.

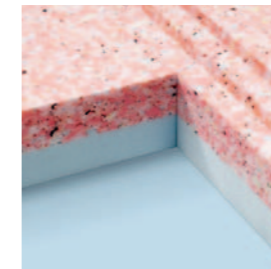

Safe working load
up to 300 kg

Like all nursing home beds from wissner-bosserhoff, the carisma 300 bariatric offers many user friendly features and a comfortable design in addition to the large patient surface area and the safe working load. For detailed information, please refer to the „carisma“ product catalog.
