File transfer

More advanced features

# Smartphone screen mirroring

Reverse charging smartphone

## Wired casting without WiFi connection

Plug and Play

# Reverse Control

During mirroring, you can reverse control the Android smartphone via gesture operation on the device screen

Android smartphone with MirrorPlay APP installed can be screen casted and reverse controlled

iPhone can be screen casted without additional APP installed, but can not be reverse controlled

Experience of smartphone with ultra large screen

# Stabilizer

Innovative anti-tip stabilizer design to make the device is more stable and does not tip over

The bottom of the suction cup is vacuumed so that it adheres tightly to the desktop

**Please use it on a smooth surface as much as possible**

**It may not have an adsorption effect on uneven surfaces**

## Self-adhesive Sticker

If the desktop is not smooth enough, you can use the official self-adhesive sticker to improve the adsorption force

## Sticker Usage

Attach the sticker to the desktop first, and then place the suction cup on it
