

Independence Begins Here

VITAL FJORD

Where Vitality Meets Nordic Elegance

At Vital Fjord, we believe that health and wellness should be as enduring and breathtaking as the landscapes of the Scandinavian fjords. Just as these fjords stand as symbols of strength, tranquility, and beauty.

Our products are designed to embody these same qualities providing medical equipment that enhances life with grace, functionality, and lasting durability.

Independence begins here.

VITAL FJORD

Throughout my life, I have focused on designing solutions that improve everyday life. As I began reflecting on aging and independence, I recognized the need for something better — something that supports people without compromising their dignity.

“Growing older should never mean giving up your independence.”

- Johan de Weerd / Founder

A stylized, handwritten signature in white ink, reading "Johan de Weerd". The signature is fluid and cursive, with the first name "Johan" and last name "Weerd" clearly distinguishable.

Why **upriser**®

The bathroom should be a place of comfort, not concern. Yet for many, it becomes a daily challenge—marked by the risk of falls, loss of independence, and the need for constant support.

UpRiser created to make a change

UpRiser is more than a toilet seat lift. It is a solution designed to restore confidence, dignity, and freedom in one of life's most personal routines.

UpRiser Benefits

Regain Control. Designed for Everyday Confidence.

Regain independence in your bathroom routine with a lift designed for safety, comfort, and seamless integration into modern homes. Thoughtfully engineered with Scandinavian simplicity, it delivers reliable support without a clinical appearance.

Independence & Safety

Operate the seat lift yourself and stay in control of your routine. The stable construction and ergonomic design help reduce the risk of falls, giving you confidence every day.

Comfort That Adapts to You

Ergonomic seating and customizable armrests provide personalized support, while intuitive dual-side buttons ensure effortless operation.

Reliable & Hygienic

Our dual-battery system ensures uninterrupted operation, while smooth, refined surfaces make cleaning simple and effortless.

Designed to Perform Built for Everyday Life

UpRiser combines controlled vertical lift, refined ergonomics, and discreet technology in a structure created for everyday reliability. Support without stigma. Performance without compromise.

Vertical Rise

The vertical motion supports the body in a natural way, helping the user to sit down and stand up with stability and confidence. The seat reaches a standard toilet height, allowing proper footing and a grounded, controlled posture.

Continuous Power. Always Ready.

UpRiser operates on a dual-battery system for uninterrupted performance. While one battery powers the lift, the other charges — ensuring continuous support. The wall-mounted battery holder provides easy access for charging or replacement.

No bathroom renovations needed.
Reliable performance. No compromise.

You are in Control, Intelligent Performance

Integrated Technology

The integrated technology in the baseplate ensures reliable performance with smooth, consistent operation, blending advanced features with a seamless design.

Remote

A wireless remote is included as standard — offering added flexibility for the user and convenient support for caregivers when needed.

Up/Down Buttons

UpRiser features intuitive up/down buttons on both sides, allowing smooth and precise height adjustment with a gentle touch.

Modern Design Meets Ultimate Stability

Design & Stability

The softly rounded columns of the UpRiser blend Scandinavian design with stability, creating a secure structure without sharp edges for a safer, more comfortable experience.

Adjustable Armrests

Adjustable armrests are included as standard, offering additional stability and comfort when desired.

They can be mounted or removed to suit individual preferences, allowing UpRiser to adapt seamlessly to its surroundings.

Effortless Everyday Hygienic & Easy to Maintain

Easy Assembly

Quick and hassle-free assembly ensures you can have your toilet seat lift ready in no time. With a straightforward setup process, no special tools or expertise are required.

Easy Cleaning

The UpRiser is designed with smooth, non-porous, anti-bacterial surfaces that help prevent the buildup of dirt and germs, making daily cleaning quick, effortless, and hygienic. So your bathroom stays fresh with minimal maintenance.

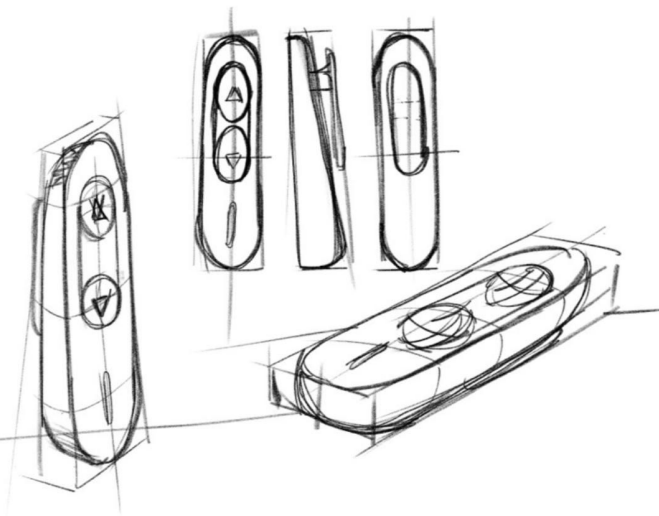

upriser

**Imagine a bathroom
experience that is effortless,
comfortable, and designed
with your well-being in mind.**

Designed through Nordic principles

At Vital Fjord, Scandinavian design is not a style. It is a way of thinking.

It starts with respect for the human body, for everyday routines, and for the dignity that should never be compromised, even when physical ability changes. UpRiser is created through a Nordic design approach, shaped by extensive test-user feedback and developed with a clear focus on human interaction, safety, and visual calm.

Every decision, from movement and materials to surfaces, proportions, and controls, is reduced to what truly matters.

The result is not only a functional aid, but a carefully designed product that integrates into modern bathrooms without stigma. Supporting independence, relieving caregivers, and restoring confidence in one of life's most private moments.

This is Nordic design as we believe in it: quiet, purposeful, and deeply human.

Home-Friendly Design That Elevates Your Daily Living

The UpRiser integrates effortlessly into your home, combining refined aesthetics with intelligent functionality. Thoughtfully designed to complement modern interiors, it delivers dependable support while maintaining a clean, sophisticated presence. Practical, discreet, and beautifully crafted, it enhances comfort without ever feeling clinical.

Designed with care

Because we care - just like you, the caregiver.

At Vital Fjord, we recognize the immeasurable contributions of older generations and the importance of preserving their independence and dignity. Aging often presents physical challenges, but that should never compromise an individual's sense of self-worth or ability to maintain autonomy. Our mission is to support both seniors and their caregivers by offering practical solutions that enhance quality of life while making daily care routines safer and more manageable.

For Caregivers

Caring for loved ones is an act of love, but it can be physically demanding. The UpRiser eases the strain on caregivers while restoring independence for seniors. It turns a vulnerable moment into one that feels safe, steady, and dignified — improving quality of life for everyone involved.

Independence for the User, Relief for the Caregiver

Technical Specifications

Lift Performance

Lift range: 435–665 mm / 17.13-26.18 in

Max user weight: 150 kg / 330 lbs

Power System

Dual-battery system

Runtime: approx. 1 month (average use)

Charging time: approx. 3 hours

Installation

High-bond nano-adhesive floor fixation

No drilling required

No bathroom renovation needed

Materials

Non-porous hygienic surfaces

Baseplate with integrated technology

Steel structure

Compliance & Certifications

- ☑ CE

Independence Begins Here

Freedom is not defined by age. It is defined by the confidence to move, to live, and to remain in control of your everyday life. UpRiser is designed to restore that confidence. Built to belong in modern homes. Created to support life on your terms.

CEO

Jason De Weerd

A creative and hands-on leader with extensive experience in designing ergonomic furniture. My work focuses on developing innovative solutions with a strong track record of delivering great results. Collaborating with talented teams, I have helped design and produce ergonomic furniture for some of the largest manufacturers worldwide.

Following in my father's footsteps, this journey has also led to joining the mission to empower elderly people to live life to the fullest.

CCO

Michael Woedd

With over two decades in the furniture industry, I have built my career around promoting products that not only look great but also support comfort, health, and productivity.

As someone who values family, staying active, and exploring new places, I understand firsthand how the right furniture can improve everyday life. My passion for ergonomics comes from a deep appreciation for design and human-centric innovation, ensuring that the spaces we live and work in are as functional and comfortable as they are stylish.

Founder

Johan De Weerd

I have always been passionate about creating solutions that improve people's lives. With Vital Fjord, my focus is on developing ergonomic solutions that empower the elderly to live independently and with dignity. As we age, physical challenges become a reality, but I believe that the right innovations can help people maintain their freedom and quality of life.

Beyond my work, family is at the heart of everything I do. I am a loving husband and proud father of two sons and a grandfather, and they inspire my drive to make a meaningful impact. My goal has always been to create innovations that enhance everyday life - because I believe that comfort, health, and independence should be within everyone's reach.

COO

Thomas Weidmann

With over 20 years of experience across Operational Excellence, R&D, and electromechanical manufacturing, I bring a hands-on, systems-driven approach to leadership. Turning complex challenges into scalable, efficient, and lasting ergonomic solutions is something I truly enjoy, while ensuring product development consistently delivers on performance, quality, and cost objectives.

I am passionate about building organizations and products that perform reliably in the real world across their full lifecycle—from design to manufacturing, supply chain, and continuous improvement—my approach is guided by creativity and curiosity. Inspiration comes from my hobby as musician as a dedicated guitar player or staying energized through sport. My family keeps me grounded and motivated, reminding me that sustainable growth and meaningful impact are always the ultimate goal.
